RIF
Installation Manual
Rough-in Frames are used for in-wall speaker installation
Warning

Installation should be performed by installer who is skilled in the proper use of hand and power tools, knowledge of local building and fire codes, and who is familiar with the environment behind the wall or ceiling where the speaker is being installed. No attempt should be made to install these loudspeakers unless you are sure you will not be cutting through electric cables, water or gas pipes, or supporting joists. Ensure the loading on the wall or ceiling will support the weight of these materials.

Installation

RIF4100L is for Ci4100QL-THX / RIF3160L is for Ci3160RL-THX & Ci3160RLb-THX / RIF5160L is for Ci5160REF-THX & Ci5160RL-THX

1A | On Center

1  Use magnetic level to level rough-in frame

1B | Off Center

2  X = 20mm (13/16 in.)
1  Use magnetic level to level rough-in frame
